Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the non-final Office Action dated May 12, 2005, please enter the enclosed Amendment of Claims in the above-identified U.S. patent application for response to the Office Action.

IN THE CLAIMS:

Please amend the claims as shown in the marked-up listing of Claims appended hereto.

REMARKS

Claims 21-40 are further amended to define the invention more clearly over the cited US Patent 6,038,593 to Huckins. The amendments are fully supported in the Specification as filed, and no new matter is deemed to be added. In particular, main method Claims 21 and 35 are amended to define that:

(a) each molecule is a software entity in a software logic web deployed in a remote computing environment and autonomously generates the micro-components forming the molecule;
